About Roll Off Dumpsters.

Roll off dumpsters have an open top, are rectangular in shape and have wheels so they can be “rolled off” a truck. Roll off dumpsters are available in different sizes and are delivered by truck to your home or worksite and can be emptied as frequently as you need.

Size Matters.

The bigger the dumpster, the more you are usually going to pay. So it is advised for you to estimate your needs wisely, else you may be spending money on a large dumpster that you won't fill to capacity. If you are new to dumpster rentals and roll-off containers, you may find the dumpster sizes page helpful. Otherwise a 10-yard is usually a good starting point for most home-based jobs such as clearing out your junk and light remodeling.

Choosing the Right Size Roll Off Dumpster.

You will want to make sure you choose the best sized roll off dumpster for your project so you do not incur initial unnecessary expense by going too large or incurring extra cost during the project by going too small, requiring you to schedule extra hauls to remove all the debris. Each cubic yard will hold roughly 15 (thirteen gallon) kitchen-sized trash bags or about 6 (thirty gallon) large trash bags.

To aid in determining the best size, please see our pictures and dimensions of all our roll off dumpsters.

10 Yard Roll-Off Dumpster

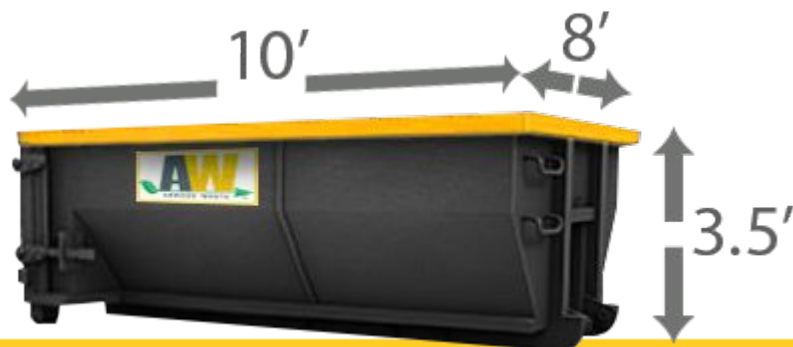

Our 10 yard roll-off dumpster rentals are at an affordable price and they are perfect for junk removal, or your next small construction or landscaping project. Their compact size makes them easy to fill without consuming too much property space. They are ideal for projects such as flooring from a small room, clearing out a garage, or getting rid of small amounts of general household items.

This dumpster is ideal for:

- Construction Debris
- Demolition Debris
- Roofing Debris
- Sheetrock/Lumber
- Small Demolition Project
- Mixed Yard/Construction Debris
- Pallets
- Windows

Specifications:

- Exterior Dimensions: 4' high (from the ground), 8' wide, and 12' long *Actual dumpster sizes and colors may vary by market.
- The dumpster is equipped with a side swinging door located at its rear. Please allow a clearance of 10' if you wish to open the door for easier loading.
- The average pickup truck can be loaded with approximately 2 yards of material. A 10-15 CY dumpster can hold approximately 5-7 pickup truck loads.

15 Yard Roll-Off Dumpster

Our 15 yard roll-off dumpster rental is larger than the 10 yard but still compact and easy to load. If you are unsure if the 10 yard dumpster is large enough, this size provides a unique compromise between the 10 yard and the 20 yard dumpster. It is perfect for small basement, attic or garage cleanup, flooring or carpet removal, yard debris, small kitchen or bathroom remodel and much more.

This dumpster is ideal for:

- Construction Debris
- Demolition Debris
- Roofing Debris
- Sheetrock/Lumber
- Small Demolition Project
- Mixed Yard/Construction Debris
- Pallets
- Windows

Specifications:

- Exterior Dimensions: 4' high (from the ground), 8' wide, and 12' long *Actual dumpster sizes and colors may vary by market.
- The dumpster is equipped with a side swinging door located at its rear. Please allow a clearance of 10' if you wish to open the door for easier loading.
- The average pickup truck can be loaded with approximately 2 yards of material. A 10-15 CY dumpster can hold approximately 5-7 pickup truck loads.
